

V. C. Summer Nuclear Station-  
Killian 230 kV Line

Blythewood-Killian Segment

Routing Study  
Questionnaire Response Analysis

2010

*South Carolina Electric & Gas  
Columbia, SC*

**South Carolina Electric & Gas  
V.C. Summer Nuclear Station-Killian 230 kV Line  
Blythewood-Killian Segment  
Questionnaire Summary**

**I. Routing Information**

**Category A: Environmental Factors**

- 2.02 Protection of forests and other existing vegetation
- 2.36 Protection of rare, threatened or endangered species (plants or animals)
- 1.83 **Protection of streams, creeks, rivers**
- 2.70 Protection of wetlands

**Category B: Community Factors**

- 1.60 **The location of residences in relation to alternate line routes**
- 2.89 The location of schools in relation to alternate line routes
- 4.52 The location of churches and cemeteries in relation to alternate line routes
- 3.93 The location of hospitals in relation to alternate line routes
- 4.76 The location of nursing homes in relation to alternate line routes
- 3.93 The location of day care centers in relation to alternate line routes
- 4.29 The location of recreational areas/facilities in relation to alternate line routes
- 4.57 The location of scenic features or scenic viewpoints in relation to alternate line routes

**Category C: Cultural and Historic Factors**

- 1.48 **The location of historic structures in relation to alternate line routes**
- 2.14 The location of historic districts in relation to alternate line routes
- 2.26 The location of archaeological resources in relation to alternate line routes

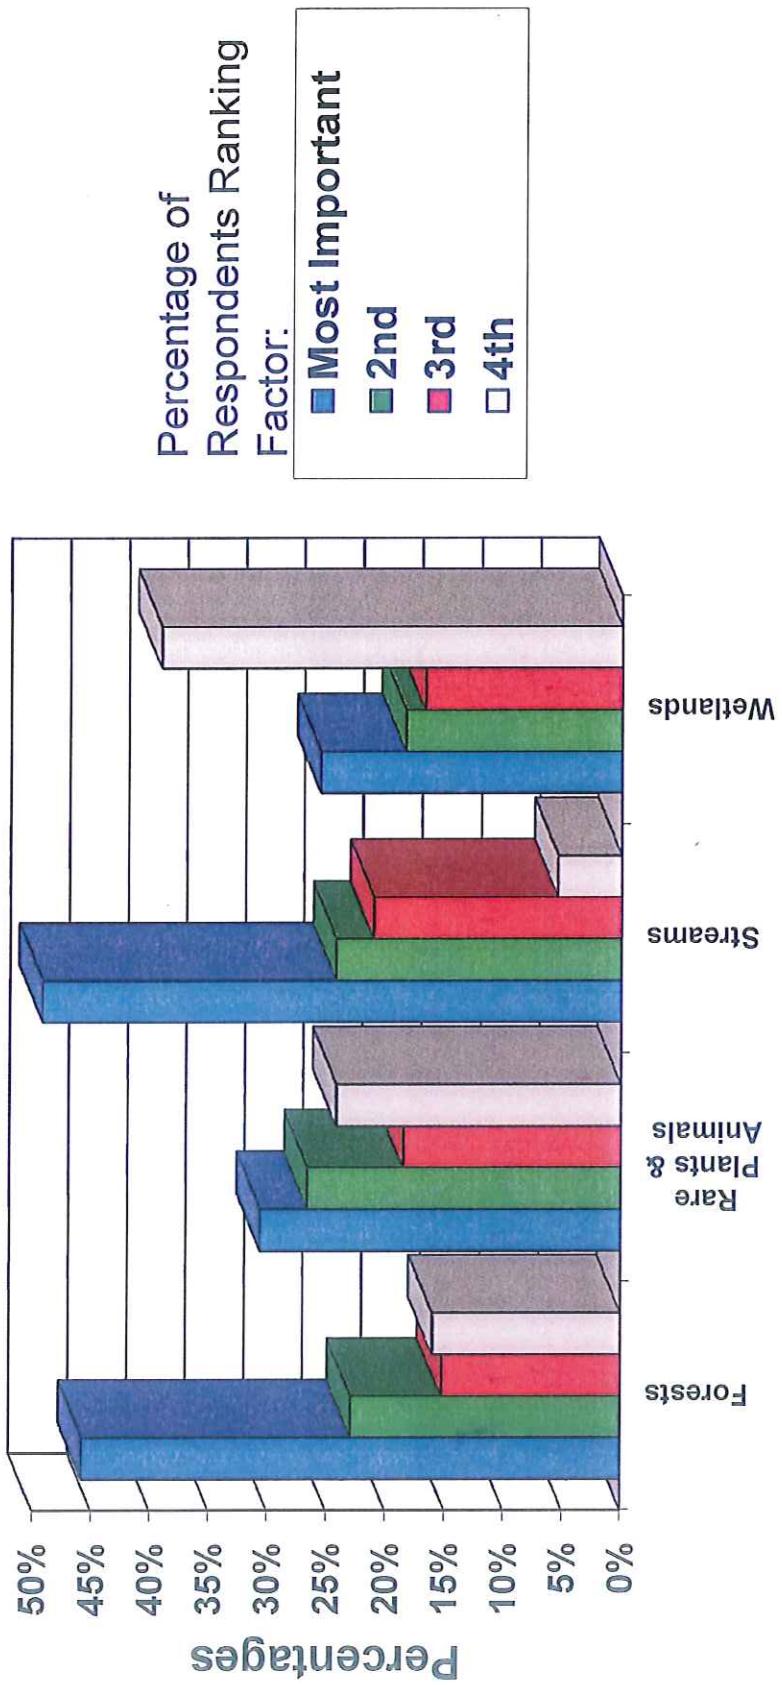

**Category D: Visual Factors**

- 1.40 **The degree to which alternate line routes will be seen from residences**
- 3.58 The degree to which alternate line routes will be seen from public roads
- 2.98 The degree to which alternate line routes will be seen from public facilities (schools, churches, nursing homes, commercial/industrial facilities, etc.)
- 3.00 The degree to which alternate line routes will be seen from public recreation areas
- 2.81 The degree to which alternate line routes will be seen from unique scenic features (riverfront trail systems, parks, hiking trails, etc.)

**Category E: Land Use Factors**

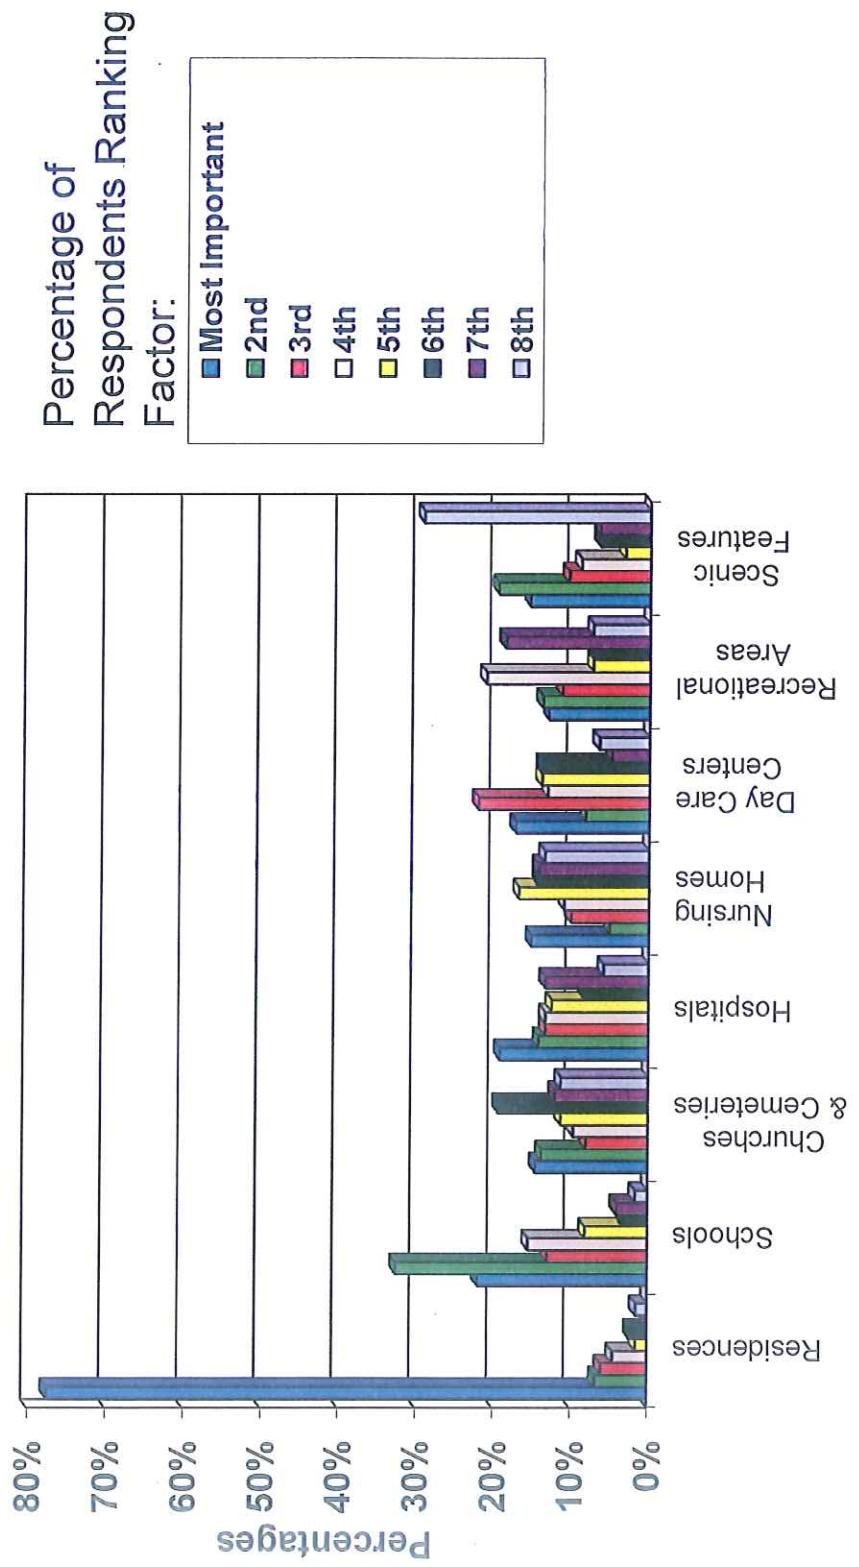

- 3.38 The effect alternate line routes will have on forests
- 3.73 The effect alternate line routes will have on crop and pasture land
- 5.28 The effect alternate line routes will have on commercial land use
- 3.76 The effect alternate line routes will have on institutional land use (church, schools, libraries, etc.)
- 6.04 The effect alternate line routes will have on industrial land use
- 1.85 **The effect alternate line routes will have on residential land use**
- 4.20 The effect alternate line routes will have on public land uses
- 3.59 The effect alternate line routes will have on recreational land use

The following is a compendium of responses to questions 2 through 6, demographic information and general comments. Each comment is referenced to specific questionnaires by a number in parenthesis. Two pages immediately following the compendium list those who completed questionnaires and provide the questionnaire number. Following these two pages is the complete list of residents who were invited to the October 29, 2009 and March 16, 2010 workshops. Copies of completed questionnaires can be provided upon request.

## I. Routing Information

### 2. Please summarize what you consider to be the most important or outstanding qualities or resources of the study area.

- Most important features would be the new high school on Turkey Farm Road. Also, the impact on environmental and recreational activities. (1)
- The land that I own has been in my family for decades. We have preserved the forest on the land and we have beautiful trees that I don't want cut down. (3)
- Maintain the integrity of residential areas that already exist. (5)
- Homes and landowners (8, 9)
- Impact on property values/resale of homes. (12, 84)
- People, residence, home value. (13, 93)
- Protected wetland around Crane Creek. (14)
- The most important is that of residential areas, private land use. (17, 23, 51, 52, 87, 100)
- Own 40+ acres of timber land/hunting property in area. (20)
- Pleasing to the eye. (24)
- Personal residence and schools should be avoided. (27)
- Waterways, land, and forest. (31)
- Commercial and industrial uses. (32, 137)
- More rural area in NE Richland County. (35)
- Not to destroy the land value by splitting tracks of land causing the loss of recreational or residential use. (36)
- "Country" appearance; we like living "out in the country". (37)
- I consider wetlands to be very important. (38)
- Forest, vegetation, creeks, streams, wetland areas, residence. (39, 56, 70, 99, 107, 133)
- To me the rural aspect is what is important. I want less industrialization here in Blythewood. Don't cut the trees. Don't pollute the water. (41)
- High school, residences, open land. (43, 51)
- Open pastures. Creeks, streams and ponds. Picnicking. Off road use. (44)
- Preservation of residential property appearance, views, and property values. (50)
- Pond and woodland. (53)
- Crescent Lake off Killian Road. (54)
- The wild life and the environment. Plus the health and well being of humans. (58)
- There is a church and a park in this area. (60)
- The effect on private land and land owners. (61)
- Growing food, plants and animals (livestock). (64)
- Most important are areas populated with residences, churches, schools, hospitals, nursing homes, water, wildlife, recreation and endangered species. (67, 88, 89)
- Residential development. (77)
- Wetlands and habitats, residential and schools, anywhere habitat/environmental issues will be impacted, or anywhere people will be exposed to high magnetic levels. (79)
- The most important concern I have is if the transmission lines will devalue my property. (84)
- Public facilities. (87)
- Private residences, Killian Park, and residential areas. (94, 117)
- Undeveloped land west of I-77. (97)
- Rare birds, streams, woodlands, and community. (98, 122)
- The residential and property owners on Marthan Rd have spent over 70 years building a very close knit small community which we do not want to be disturbed. (101)
- Wetlands and wildlife; we have eagles, hawks, and falcons on our property as well as deer. (102)
- Close to residence area and school. No damage to environment. (105)
- In our area at 189 Turkey Farm Rd, our parents have been laid to rest. I have been told there are Indian artifacts on this property. (109)

- Marthan Rd is comprised of a small community of neighbors and owners who have worked for almost a hundred years to build a community and this neighborhood should not be tampered with for the power lines. (110)
- Residential areas and parallel dwellings, and high usage areas. (111, 124)
- All of the above are important. (112)
- Resources. (113)
- Residences. (119, 125, 137, 138)
- Streams. (120)
- Most important resource is the environmental factors – for human health reasons it is vital to protect nature (trees, creeks, rivers, streams, plants, animals, etc.) (121)
- Keep family neighborhoods and schools, churches and daycare areas safe. (126)
- The natural trees and pastureland. Residential and church structures. (130)
- The rural home settings and abundance of trees. (131)
- The wooded areas are very important to the wildlife, hate to see so much taken away from them, when so much has been taken already. (135)
- Safety is the most important for the people in the communities. (136)
- The undeveloped and rural nature of much of the land in the study area. (139)
- Nothing in this study area is more important than reliable energy. (140)

**3. Do you know of any building, family cemetery, or landmark in the study area which may be architecturally or historically important? If so, please give the location and the owner's name and address or visit the Route Selection Workstation and point out the location on maps provided.**

- Fair Lawn United Methodist Church and another behind the cemetery off Wilson Blvd. (3)
- The otter is in the lake and creek area of Crescent Lake. (46)
- New Free Hope Independent Church & cemetery, 1128 Marthan Rd, Blythewood, SC 29016; cemetery along Farrow Road between Clemson and Rt. 21 (52, 60, 111, 113, 114)
- Church cemetery at junction of Marthan and I-77. (56)
- Park and ball field. (60)
- Boney/Raines Cemetery – Rimer Pond Rd. (66)
- Yes – church – Shiloh CFBC – 1634 Hardscrabble Rd. (67)
- Ebenezer Holiness Baptist Church/Cemetery, 1008 Old Sloan Rd, Columbia, SC 29223; Church camp, 210 Mt. Pilgrim Church Rd, Columbia, SC 29223. (68, 113)
- Our pond – could not locate on your map? Why? (93)
- There is a cemetery at the Marthan Rd community which we do not want to be disturbed. (101, 110)
- I live outside of the study area. Occasionally I visit the area, and it's not that densely populated but for those who live in the area I'm certain that their input would be more valuable. (104)
- "Grey" area is where projects are currently in process – NE Sports Complex, phase 2 and 3 of Killian/Clemson/Farrow Road expansion. (107)
- In our area at 189 Turkey Farm Rd, our parents have been laid to rest. I have been told there are Indian artifacts on this property. (109)
- Killian Baptist Church, Killian Rd. . )
- Rings family cemetery, back off our 120 Rimer Pond Rd. The oldest one around. (116)

**4. Are you aware of any feature or place in the study area with unique or special scenic quality? If so, please explain below and to the Route Selection Workstation representatives at the Community Workshop if you attend.**

- My home place. (3)
- Why near a recreational area? (13)
- Wetland around Crane Creek. (14)
- Own 40+ acres of timber land/hunting property in area. (20)
- Cypress Lake on Governor Pond Road. (40)
- Crescent Lake (a 14 acre private lake in wetlands – the 100 year flood zone); Crescent Lake located between Killian Loop Rd and Smith Davis Road and Governor Pond Rd. This lake has been affected by all the land clearing and development since the raping of the land at Killian Crossing several years ago. DHEC has to be called in. (46)
- Creek behind Providence Crossing. Patio homes is the habitat for an endangered/protected species (frog). (50)
- Killian Community Recreation Park. (51)
- Pond off Fulmer Road. (53)
- Yes – our community in the area of Hardscrabble between Farrow Rd and Wilson Blvd. (67)
- Only ponds and lakes. (79)
- Our pond! (93)
- Throughout the area there are several rare birds that make their home here. (98)
- Marthan Rd is a peaceful and beautiful environment complete with lovely trees and flowers and all the greenery that make our cozy neighborhood complete. (101)
- Current subdivisions and construction have already destroyed these. (102)
- Large area of wetland and underground springs located in area between Washington Heights and Providence Plantation. (107)
- Our farm at 181-189 Turkey Farm Road. (109)
- Again, Marthan Road is a neighborhood made up of long-time residents and where we have kept up the area so that it remains neat and beautiful. (110)
- Willow Lake and entrance to subdivisions. (111)
- Hawkins Creek provides water and wetlands for wildlife and forests. (115)

**5. Are you aware of any location in the study area that is frequently used for recreation? If so, please describe the location below and to the representative at the Route Selection Workstation if you attend the Community Workshop.**

- Richland County Rec Center. (13)
- Yes, Killian Community Park on Marthan Road, Blythewood. (10, 17, 19, 52, 56, 60, 113, 117, 119, 120)
- Blythewood Park. (27, 118)
- Cypress Lake on Governor Pond Road. (40)
- Hardscrabble at I-77: dove and deer hunting, skeet shooting, picnicking. (44)
- Park in Blythewood – Willow Creek Church on Rimer Pond has sports outside. Blythewood High, Bethel-Hanberry School, Round Top Jr. High, Round Top Elementary, horse stables for riding, etc. (45)
- Crescent Lake (a 14 acre private lake in wetlands – the 100 year flood zone; Crescent Lake located between Killian Loop Rd and Smith Davis Road and Governor Pond Rd. This lake has been affected by all the land clearing and development since the raping of the land at Killian Crossing several years ago. DHEC has to be called in. (46)
- Our patio areas, as the area is a subdivision of patio homes. (50)
- Recreation Area - 1424 Marthan Rd, Blythewood, SC 29016. (51, 52)
- Pond, woods, creek. (53)

- Parks, ponds, lakes. (79, 85)
- They are in the process of building a recreation gym in the area. (82)
- Beasley Creek has a planned pool/cabana area on Turkey Farm. (94)
- The Killian Research Park building, which is operated by Richland County Government, is located on Marthan Rd, and not only employees salaried workers, but it serves the Killian Community with day care, summer camps, athletic events, and social events. (101, 110)
- Killian Community Center on Marthan Rd. (102)
- NE Sports Complex has been approved by Count Council already. (107)
- Our farm at 181-189 Turkey Farm Road. (109)
- Willow Church at Willow lake entrance; riding (horseback) Farrow Rd at Wilson Blvd near Blythewood Storage facility. (111)
- Walking trails in Summer Pines Neighborhood. (118)

**6. SCE&G's siting team will consider an array of factors when evaluating the alternate routes and selecting the preferred one for the Blythewood–Killian 230 kV Line segment. Do you have any suggestions or comments for them to consider during this evaluation process?**

- Don't want power lines on my land!!! (3)
- Living close to electric power lines may be detrimental to health of human beings. The lines need to respect neighborhoods that already exist. (5)
- Don't come down Gov. Pond Road. It is a very narrow road—for home owners. (8, 9)
- Keep the trees and personal property intact. (12)
- More rural area. (13)
- Do not cross WSV L.P. land!!! (15)
- Are the lines above or underground??? (17)
- Do not want lines to adversely affect property value. (20)
- Away from residential areas. (23, 88)
- Stay east of I77. (27, 123)
- Use existing public "right-of-way". They already look bad so a little more will not change things. (30, 100)
- Follow the interstate or state highways. Do not bi-sect valuable commercial properties. (32)
- Don't play politics – listen to the people! (43)
- What factors does SCE&G consider. I need to know. (46)
- I respectfully request that this line not be run through our subdivision or near our patio homes. (50)
- Care and consideration of established residential. These areas should be disturbed minimally. (51)
- Try to avoid areas already being utilized. (53)
- Only residential areas. (54)
- What effects if any would this have on residence and families living in close proximity to these lines? (55)
- Attempt to avoid established residences. (59)
- Just worried about residential land, will this affect residential owners? (65)
- At the northern end of the area are several large power lines. \*We have enough already. (66)
- Please consider placing the site as far away from places where humans are and forest areas to include farm lands (crops and pastures). Try to hide it from being an eyesore in the area. (67)
- Homes and schools in area. (70)
- Treat all involved residents fairly. (77)
- Please respect habitat, wetlands, and human residences. (79)
- Make sure that there is no recreation area in the siting area. (82)

- Is there any reason the lines cannot be buried? (84)
- This site is much too close to residential areas. (91)
- Yes, minimum impact on homes and their value. (93)
- Not sure of the size or scale of the project, but keep it on existing road if possible. (97)
- Be more specific on where probable routes are. (98)
- Place lines outside of and away from Marthan Rd. (101, 110)
- Try to preserve landscape as much as possible! Utilize areas already clear cut, don't destroy trees during animals/birds nesting season – please! (102)
- If the line segment is needed, place the segment so people can't see it by residences and by the road. (105)
- The number of residences already established and also the number of lines already up. (107)
- The place you have designated has always been an eye sore – you need to plant trees. (109)
- Existing high voltage line is existing at Rt. 21 – could this be used as alternate? (111)
- Do not put lines close to residences. (113)
- Judging from the map, it would make sense to run the line along Farrow Road, parallel to the road. (117)
- Follow the railroad. (120)
- Traffic lights are needed at complex of entrances, or stop signs which will allow traffic to flow easily as vehicles enter from complex (on Farrow Road). (121)
- Wilson Blvd already has large poles supporting high tension lines – would not like to see larger poles/towers here. (122)
- Make every effort to avoid residential – long term exposure. (124)
- Pick a site away from homes and church sites. (130)
- Safety! (136)
- Try to choose routes which will have the least environmental impact and the least impact on residences. (139)
- Yes, tell the tree huggers if they don't want it "in their backyard" you will move it and charge the expenses to them. (140)

## **II. Demographic Information**

### **1. Other**

- Commercial developer. (32)
- I reside at 120 Governor Pond Rd, Columbia, S.C. 29203 (which is on Crescent Lake). (46)
- Have family living in study area. (51)
- Pastor's wife of Shiloh CFBC that is located in community. Members live in community. (67)
- Killian Area. (137)

### **3. If you have any additional comments, please use the space below or attach a sheet to this survey.**

- I would ask that you please consider the new high school on Turkey Farm Road. I represent Richland 2 and I think it would be in the best interest of the school and community to exclude this area. (1)
- I don't know if my property is in the study area. However I have listed my concerns. We have had an influx of housing and commercial that are cutting down the trees. I do not look forward to more destruction of the forest in this area. (3)

- SCE&G says they need additional production. I have seen nothing that supports this since electric grids provide ways to transfer power from one system to another. The cost to build plants that may not be needed seems to be an unusual price to charge present customers especially in the present economy. (5)
- I will not be able to attend the public workshop, but am interested in discussions and decisions. (14)
- Do NOT plan to cross our property. We have way too many power liner R-O-W's already. (15)
- My tract of land, approximately 20+ acres, will be developed soon for a regional shopping center. (32)
- The study area map does not include proposed route lines. (37)
- Please don't destroy what is left of the forest beauty of Blythewood. (39)
- We already have a transmission line thru the property. Any more would ruin it for future use. We would be very negatively impacted by any additional lines. 42 acres with a billboard on it. (44)
- We are extremely upset that SCE&G would consider putting a nuclear substation in such a populated area. It would be too close to the schools, residential areas and business areas. There has to be a more suitable location away from the general population. Northeast Columbia is a fast growing area. This is a total disregard for not only the environment, but most important the NE population. This will also affect our property values. (45)
- As I have stated in SCE&G's Category E: Land Use Factors, Question #4 and #5: I am in the 100 year flood zone; wetlands and bordered by forest-type land with a dam and creek and 14 acre private lake (along with several other families). I have lived here for 37 years and the eco and water systems were undisturbed until the raping of the land at Killian's Crossing several years ago; with each new development and land rape in this area, problems worsened with the natural water system. I do not, nor do others within the Crescent Lake area, feel this area is feasible for further development and/or environmental endangerments. Most of the residents in this area live on small, narrow dirt roads. We are opposed to further endangerments/developments and encroachments. Please be good stewards of the land and environment. Thank you. Bevelry E. Byars. (46)
- Would consider selling property if useful to SCE&G. (48)
- I would like alternate routes considered either closer to Hwy 77 or in more dominantly commercial areas such as along the railroad tracks. (50)
- Street name change 145 Jessie Brown Lane. (52)
- I would not like to live near this high power lines. (60)
- These lines need to be routed near industrial and commercial sites. They should avoid residences. (66)
- Please keep me informed about the decision. I am available to help in any way I can. (67)
- We have rental income on property in question, and we are concerned how this may affect us. (68)
- If it is possible, don't cut any trees. Have some pet graves, that we don't want disturbed. (72)
- Keep us informed. (77)
- I am concerned about electromagnetic emissions on people who live near the lines and the destroying of the habitats and environments of wildlife in order to install lines. (79)
- If you do run lines across my property, how much will you pay? (84)
- Would like a call. (93)
- I think I have contributed enough of my property to power, water, and cable right-of-ways as it has rendered my property in the forks of highways 21 and 555 virtually worthless. Thank you. (95)
- Concerned that future value of undeveloped land will be impacted by additional transmission lines. (96)
- Please preserve and protect the Marthan Rd community in the same manner used to preserve and protect the Turkey Farm and Wren Creek communities. (101)
- I know not everyone is happy about this. However, as long as the county continues to approve new subdivisions, industry, schools, etc. the demand for power and resources increase. My concern is preservation of environment and wildlife as well as aesthetic results to the area. (102)
- Please keep in mind that this earth is the only place in which we exist, and if we trash and damage it, to our hurt, where then can we go to save ourselves? (104)

- I feel route should be considered very carefully so it doesn't hamper any future development (resident or commercial) and doesn't cause any harm to people and or environment. (107)
- If we do not protect the forest, streams, wetlands and animals, we will become another New Orleans. God gave them the wetlands for a purpose and that was to protect the rest of their land. They ignored this natural protection, built on the wetlands, and now look at their situation. Greed does a great deal of harm. (109)
- We want Marthan Rd to be free of this power line, especially if Wren Creek will not be affected by power lines. Thank you. (110)
- Firetower Road seems to be a target. Please consider another route for your power line. The residents of this road just went through the inconvenience of a big water line being put in place down the right-of-way by the City of Columbia. In the beginning they offered us each a \$1.00 for easement, then before that the Town of Winnsboro put a water line on the other side of Firetower Road. We also have a big power line already going through Firetower Road. We have had enough. (112)
- Thank you for asking for input from the public sector. (126)
- I do not want to have large power lines in my front or back yard. (131)
- I was wondering, how much would a new line affect property value, and how much will it affect the land that you build on – tearing it up, making the area of the land useless to the owners. (135)
- Thanks for the information about the 230 kV lines - would like to stay informed of the development in the future. (136)
- I'm not really as bitter as I sound – I just get outdone with everyone wanting everything for free, but not near them. (140)
- Is this project safe to put into a residential neighborhood. (142)
